LAMPERT CIGARS

*Lampert Cigars was founded by
Dr. Stefan Lampert in 2017.*

An attorney by trade, the initial idea to create his own cigar brand crossed Stefan's mind in 2016 during a vacation in Thailand. There, Stefan discovered the wide range of tailored suits available on the local markets, and wanted to transfer this concept of the custom made, bespoke suit to the cigar business. With his selections, he thought to give customers an option to create their very own handcrafted, premium cigars as if working in a custom shop or laboratory, and for that reason he named his first cigar line **MY CIGAR LAB** - later renamed **ORO LINE**.

Because the product line was so well received by connoisseurs everywhere, Stefan was determined to take the concept even further. After sampling many different tobacco blends, one particular batch stood out among the others - one with a stunningly saline taste. The salty, briny notes of this cigar reminded Stefan of the sea, leading him to name it **OCEAN BREEZE**.

To create an even richer and more diverse range of cigars in his portfolio, Stefan looked for additional cigar makers in Central America, and settled on Nicaragua; due to their long history with tobacco and high-quality output crafted by exceptionally talented cigar rollers.

A joint collaboration with the Ortez family began, and the cigar line **LAMPERT 1675 Edición Azul** was launched. This line as well was a huge success both in the European and the US-American markets, so that Stefan created the **LAMPERT 1675 Edición Rojo** line also in collaboration with the Ortez family, soon after.

History

Cigars

The **LAMPERT** family was granted their first family crest in 1593. This hallmark displays the colors red and gold as a combination emblazoned across a shield that is capped by a golden crown and leaping lioness, a classic symbol of royalty and power.

The shield itself displays a castle with two golden roofs, one on each side. Heraldic gold eclipses the brilliance of all other metals and symbolizes prestige, virtue, and majesty. The transition to silver signifies purity and wisdom.

These two metals are tied-in with an intense crimson red, representing the patriotic spirit of chivalric service tendered to the fatherland.

In **1675**, the **LAMPERT** family was granted their second family crest.

You will notice the predominant colors of azure and argent along with a lamb leaping atop the crown and mother ewe in profile across the shield, symbolizing faith, innocence, gentleness, purity and a resolute spirit. The blue across the shield represents loyalty and constancy, mirroring a sapphire gemstone. Silver represents the pale glowing moon and shimmering pearls.

Oro Line

The original idea of the **LAMPERT ORO LINE** was the customized cigar experience. Everyone should be able to customize a cigar according to their demands. This idea symbolizes the birth of **LAMPERT CIGARS** in 2019.

The **ORO LINE** guarantees a creamy, aromatic and mild to medium-strong smoke. Grassy, spicy aromas are present throughout the smoke, while woody, nutty and finally strong, roasted aromas develop towards the finish. The blends have been adjusted according to the different sizes of the line.

Edición Azul

Edición Azul is handcrafted at Agrotabacos in Nicaragua

Edición Azul

LAMPERT 1675 Edición AZUL is an extraordinary achievement by Fábrica AGROTABACOS, Nicaragua.

This cigar offers rich, yet nuanced flavors that constantly evolve throughout the smoking experience. It is full-flavored but medium-bodied with a smooth finish and achieves to blend the citrus notes of a high Peruvian priming (Ligero) together with fillers grown, fermented and aged by the ORTEZ family in the Jalapa and Condega valleys. The combination of five-year-old Peruvian *Pelo de Oro* with three or four differently aged fillers respectively, delivers a decadent and intense experience.
